

Subject: Product lifecycle change notice for UNO-2.0/3.0/3.6/4.2-TL product line

Dear Customer,

ABB hereby announces the products that will move from Active to Classic phase on April 2018 according to the Product Lifecycle Policy for ABB solar products.

The UNO-2.0/3.0/3.6/4.2-TL products will be officially removed from the price list starting from April 2018, please refer to the *Table 1* of the concerned discontinued product versions and their corresponding new UNO-DM-PLUS versions.

Please note that

- the UNO-3.0-TL could be replaced with the current UNO-DM-3.3-PLUS or with the new UNO-DM-3.0-PLUS (single channel) available from the next year
- the UNO-3.6/4.2-TL versions will not be replaced by any other product for new installation

The last time buy is foreseen by March 30th 2018 and last shipment within May 2018.

The lifecycle change of these models allows ABB to focus on offerings to meet the needs of the evolving solar market.

Warranties and service agreements for the products affected by this lifecycle change will continue as per the terms and conditions of sale.

Yours sincerely,

—

Cesare Lancini
